Re: *Salt River Project's Compliance with ACC Decision No. 63611*
Docket No. L-00000B-00-0105

DOCKETED BY	<i>nae</i>
-------------	------------

Dear Commissioner Spitzer:

Thank you for your letter dated January 10, 2002 concerning the above referenced matter. As you are aware, I fully supported your proposed amendment (Condition No. 36) to prohibit the burning of distillate oil at Santan.

While I am hopeful that Salt River Project does not intend to repeal or amend any condition of their Certificate of Environmental Compatibility, I do believe that their current filing of an air permit revision bears further explanation. I would support that this matter be scheduled for a Special Open Meeting – with participation by parties and members of the public – for the specific purpose of discussing SRP's actions in this regard.

If, after listening to what the company has to say, the Commission feels compelled to hold more formal hearings to analyze the merits of SRP's current air permit application, I would support such a procedure. However, I believe our most prudent course of action at this time is to have the company address our concerns in a public, open forum.

Sincerely,

Jim Irvin, Commissioner
Arizona Corporation
